### Job Description

(adsbygoogle = window.adsbygoogle || []).push({});

This company was formerly known as SmartCook Energy. Last-mile energy networks for Africa's cities. Smarter commerce for urban Africa. Unique rich media delivery platforms. Our mission is to improve life for everyone in Africa's cities.

### Your Role

As an Assembly technician, you will be responsible for the assembly, installation, and repair/rework of KOKO Networks hardware, including KOKO point units, Smart Tanker System, and Smart Depot System for Nairobi and other Networks.

### What you will do

Coordinate with the inventory and maintenance teams to ensure the timely execution of production activities

Planning and adherence to all production schedules and activities against set metrics

Ensure all assembled network hardware conforms to respective quality requirements

Report, document, keep track, and own activities by completing forms, sheets, logs, and records using provided tools

Ensure good work management of provided tasks to meet daily targets and maintain high-quality outputs

Interpreting drawings, training manuals, and work instructions in order to perform duties

Continuously identify needs for improvement by conveying it to the line manager and/or engineering team to maintain high-quality work standards

Maintain assigned tools and equipment in good operating condition by following operating instructions, troubleshooting malfunctions, and performing regular maintenance

Repair and rework of network defective parts from the field in defined frequency and manage critical parts

Collaborate with the engineering team and share assembly feedback and make adjustments where required through provided communication channels and tools

Maintain internal customer satisfaction through professional conduct and engagements

Ensure adherence to Health, Safety, Environment, and Quality Management System requirements

### **What you will bring to KOKO**

2+ years hands-on experience in production operations or a similar technical capacity

Minimum Diploma or Higher Diploma in Electrical Engineering, Mechanical, Instrumentation, or any other Engineering related discipline

Excellent analytical, and problem-solving skills, and attention to detail

Excellent written and spoken communication skills

Organizational skills with the capability of working towards tight deadlines

A team player able to work effectively with others and independently with minimal supervision
