Location: Kenya

Category: production

Job Description

(adsbygoogle = window.adsbygoogle || []).push({}); The AECF provides catalytic funding in the form of repayable and non-repayable grants to businesses that would not otherwise have access to adequate financing. The AECF is part of the Alliance for Green Revolution in Africa (AGRA) family and has been supported by governments (Australia, Canada, Denmark, The Netherlands, Sweden and United Kingdom), and international financial institutions (Consultative Group to Assist the Poor and IFAD).

Competence.

The consultant/Consulting firm should demonstrate the following:

Demonstrates integrity by modelling basic ethical standards.

Displays cultural, gender, religion, race, nationality, and age sensitivity and adaptability.

Ability to work in close collaboration with AECF staff, prioritize and meet strict deadlines.

Demonstrates capacity to plan, organize, and execute effectively.

Builds strong relationships with internal and external clients.

Demonstrated ability to function in a team environment and to deal with a complex multi-stakeholder environment.

Excellent written communication and presentation/public speaking skills focus on results, ability

to interact productively in a teamwork environment.

Qualifications and experience.

Education

The Consultant/Lead consultants should have the following qualifications:

At least a **master's degree** in environmental Auditing, Carbon Finance, Climate Change Mitigation, Carbon Accounting, Environmental Management, Environmental Engineering or another related discipline.

Experience

The consultant/consulting firm should have the following experience:

Minimum of **10 years** of professional experience in carbon finance, carbon projects design, and knowledge of the nexus of carbon finance and experience in compliance (CDM) and voluntary carbon markets (e.g. Gold standard/verra). Understanding of the Paris Agreement, Nationally Determined Contributions and UNFCCC carbon markets guidelines is an added advantage.

Experience in carbon accounting, and development of GHG inventories in the Energy and Agriculture IPCC sectors.

Familiarity with international development issues, including an understanding of technical and regulatory matters in the areas of climate change, Article 6.2, 6.4 and sustainable development.

Demonstrated experience with the development of carbon finance projects in developing countries with at three similar projects conducted in the past.

Experience in undertaking Capacity Gap and Needs Assessment for carbon market readiness in developing countries. Experience working with SMEs is an added advantage.

Understanding of monitoring, reporting and verification requirements

Proven knowledge of the development of carbon markets-related guidance manuals.
