

Environment, Energy and Sustainability Internship Global Talent Pool Call-Out

[Apply Now](#)

Company: Career Bridge Limited

Location: Multiple Locations

Category: community-and-social-service

Are you a recent graduate who just finished your undergraduate degree? Are you looking for an opportunity to gain first-hand experience? We invite you to join our Environment, Energy and Sustainability Internship Talent Pool. The primary purpose of the talent pool is to find candidates to support Environment, Energy and Sustainability field processes. Background Career Bridge is excited to launch the Internship Talent Pool, aimed at providing young and talented individuals with a platform to kickstart their careers and contribute to significant global challenges. Being part of a talent pool offers numerous advantages. Here are some key benefits of being in a talent pool: Linkage to employers Access to Opportunities and skill matching Networking Career Development Position: Environment, Energy and Sustainability Internship (Global Talent Pool) Experience: 01 year Location: Global Industries: Humanitarian, NGO, INGO Roles within the Talent Pool include, but are not limited to: Sustainability Intern Renewable Energy Intern Environmental Monitoring Intern Climate Change Adaptation Intern Environmental Policy Intern Energy Efficiency Intern Natural Resource Management Intern Environmental Education Intern Green Building Intern Roles and responsibilities: Assist in the development of research proposals, survey instruments, and methodologies for assessing environmental impacts and sustainability practices. Assisting with research on the environmental impact of natural disasters or conflict zones. Assist in collecting and analyzing data on energy access, water resources, and climate change vulnerability in target communities. Provide administrative and logistical support to project teams working on environmental, energy, and sustainability initiatives, including organizing meetings, preparing reports, and managing project documentation. Supporting

the development and implementation of projects that promote sustainable resource management and climate change resilience. Assist in community engagement activities, including organizing focus group discussions, conducting interviews, and facilitating participatory assessments. Participating in data collection efforts in the field related to environmental issues (e.g., water quality testing, deforestation surveys). Assist in developing content for newsletters, social media platforms, and website updates to highlight environmental initiatives, success stories, and best practices in humanitarian settings. Participating in community events and meetings to promote environmental awareness and behavior change. Assist in the design and implementation of environmental education and awareness campaigns targeting affected communities, focusing on topics such as waste management, renewable energy, and climate resilience. Support the design and implementation of renewable energy projects, such as solar power installations, energy-efficient cookstoves, and off-grid energy solutions. Support the development and implementation of sustainability monitoring frameworks and indicators to track progress towards environmental sustainability goals in humanitarian operations. Assist in collecting, analyzing, and reporting data on environmental performance metrics, including carbon footprint, water usage, waste generation, and ecosystem health. Assist in conducting policy analysis and research on environmental and energy policies relevant to humanitarian response and development efforts. Support advocacy efforts aimed at integrating environmental sustainability considerations into humanitarian policies, programs, and funding mechanisms. Assist in assessing the climate risks and vulnerabilities of communities affected by humanitarian crises and identifying adaptation strategies to enhance resilience. Support the development of climate change adaptation plans, disaster risk reduction initiatives, and early warning systems to mitigate environmental risks and protect vulnerable populations. Assist in organizing training workshops, community meetings, and capacity-building sessions to empower local communities to address environmental challenges and adopt sustainable practices. Support the establishment of community-based environmental committees or task forces to mobilize community action and leadership on environmental issues.

Requirements Core Competencies: Communication Skills Adaptability Teamwork Problem-Solving Skills Time Management Attention to Detail Initiative Technical competencies: Basic Understanding of Environmental Concepts Data Collection and Analysis GIS and Mapping Skills Sustainability Principles Environmental Policy and Regulations Technical Writing Environmental Education and Outreach Requirements/
