Job Description

(adsbygoogle = window.adsbygoogle || []).push({});

Regen Organics is an industry leader in regenerating agriculture, cities and communities. We implement a circular economy model to sustainably manufacture regenerative insect feed for animals, various organic fertilizers and ecofuels for use in fast growing emerging markets. Our technologies and professional logistics network are developed in-house to safely collect and transport residual organics generated in cities and their environs for upcycling into various regenerative products. We operate the largest organics recycling plant in East Africa.

About the Role

As a Facility General Staff member for our organic waste recycling facility in Kakamega, you will be responsible for performing a variety of tasks related to the general operation of the facility. Your duties will include, but are not limited to, cleaning and maintaining the facility, monitoring and operating machinery, and ensuring that all waste materials are handled safely and efficiently

Duties and Responsibilities

Clean and maintain the facility to ensure a safe and sanitary environment

Operate machinery and equipment, including balers, shredders, and forklifts, to process waste materials

Monitor waste materials to ensure that they are properly sorted and separated

Assist in loading and unloading waste materials from trucks and other vehicles

Conduct regular inspections of the facility to identify any potential hazards or issues that need to be addressed

Report any safety concerns or incidents to the appropriate supervisor or manager

Adhere to all company policies and procedures related to safety, quality, and environmental compliance

Assist in other tasks related to the operation of the facility as needed

Qualifications

KCSE or equivalent

Prior experience working in a manufacturing or industrial environment preferred

Ability to operate machinery and equipment, including balers, shredders, and forklifts

Good communication skills and ability to work well in a team environment

Physical stamina to lift and move heavy objects as needed

Basic knowledge of safety and environmental regulations and practices

Ability to work in a fast-paced and constantly changing environment
