Job Description

The Presbyterian University of East Africa (PUEA) is a private university founded in by the Presbyterian Church of East Africa (PCEA). The University is registered with the Commission for University Education (CUE).

PUEA/FM/03/

About Job

The Farm Manager at The Presbyterian University of East Africa (PUEA) is responsible for overseeing all farming operations on campus, ensuring the efficient and sustainable management of agricultural resources. This position requires a knowledgeable and organized individual who can lead a team, implement best practices, and contribute to the university's goal of self-sufficiency in food production.

Requirements for Appointment

Bachelor's degree in Agriculture, Agronomy, or a related field. A master's degree is preferred;

Proven experience in farm management, preferably in a similar setting;

Strong knowledge of crop cultivation, animal husbandry, irrigation systems, and pest control;

Familiarity with sustainable and organic farming practices;

Strong leadership and team management skills;

Excellent organizational and problem-solving abilities;

Ability to work independently and make informed decisions;

Good record-keeping and analytical skills;

Proficiency in using farm management software and equipment;

Understanding of health and safety regulations in agricultural operations.

Duties and Responsibilities

The Farm Manager shall be responsible for and perform functions which include but not limited to the following:

Plan, coordinate, and manage all farm activities, including crop cultivation, livestock management, irrigation, pest control, and fertilization.

Develop and implement farming plans, schedules, and budgets in line with the university's agricultural goals;

Supervise and provide guidance to farm staff, ensuring proper execution of tasks and adherence to established protocols.

Monitor and evaluate crop yields, livestock performance, and overall farm productivity;

Collaborate with agricultural experts and researchers to implement innovative farming techniques and technologies;

Maintain accurate records of farm activities, including planting schedules, yields, expenses, and equipment maintenance;

Oversee the maintenance and repair of farm equipment, ensuring their proper functioning and safety;

Manage farm resources efficiently, including water usage, fertilizers, and other supplies;

Ensure compliance with environmental and safety regulations related to farming operations;

Collaborate with other university departments, such as the kitchen and procurement, to optimize the use of farm produce and support the university's sustainability initiatives.

Stay updated on industry trends and advancements in farming practices, sharing knowledge and best practices with the team;
