Job Description

Ericsson is a world-leading provider of telecommunications equipment & services to mobile & fixed network operators. Over 1, networks in more than countries use Ericsson equipment, & more than 40 percent of the world's mobile traffic passes through Ericsson networks.

Using innovation to empower people, business & society, we are working towards the Networked Society, in which everything that can benefit from a connection will have one. At Ericsson, we apply our innovation to market-based solutions that empower people & society to help shape a more sustainable world.

Come, and be where it begins.

Ericsson is growing! Our Ericsson Graduate Program in Kenya will focuses on technology leadership. We aim to attract and guide the most hardworking, innovative and creative technology minds.

We are looking for Engineering Graduates who have completed their studies between and with one of the following bachelor's degrees:

Computer Science / Software/Computer Engineering / IT or Information Systems / Networks Engineering/Communications degrees with a focus on Telecommunications

Candidate should not have more than 1 year of work experience

To be successful in the role you must have

Basic Networking knowledge

Database Understanding

Broad Technical Acumen

Entrepreneurial & commercial thinking

Problem Solving Ability

Creative Thinking

Good planning and organizing skills

Teamwork & collaboration skills

Presentation skills (oral and written)

Proficiency in Microsoft office

Good Communication skills

Good Negotiation skills

We believe in growing our graduates and giving them a chance to have the best possible start in their career. Graduates at Ericsson gain valuable work experience, skills and knowledge that will assist them in furthering their career. We therefore not only let you work with the teams on live projects, but you will be receiving training courses throughout the program and will also be assigned a dedicated mentor who will be providing formal as well as informal mentorship.

What we are offering you

12 months (plus) graduate program – we offer you a great training program before you move into an experienced job

Explore your passion for innovation and your desire to join a leader. You'll enjoy an open, inspiring culture that encourages idea generation and thought exploration

Working in an international environment with colleagues from all over the world.

Continuous on-the-job training, in classrooms and via e-learning.

A mentor and buddy program.

An opportunity to work for the Global leader in the Telecommunications industry.

Mentorship programs provided by senior specialists in the industry.

We believe in growing our graduates and giving them a chance to have the best possible start in their careers. Graduates at Ericsson gain valuable work experience, skills and knowledge that will assist them in furthering their careers. We therefore not only let you work with the teams on live projects, but you will be receiving training courses throughout the program and will also be assigned a dedicated mentor who will be providing formal as well as informal mentorship
