

Investment analyst - MIROVA

[Apply Now](#)

Company: Natixis

Location: Kenya

Category: business-and-financial-operations

Job Description

Lead Transactions:Oversee the entire investment cycle from origination to desk and onsite due diligence, including preparing and reviewing financial models, preparing investment committee memos, conducting credit risk assessments and negotiating and structuring transactions to managing financial close.

Portfolio Management: Maintain strong customer relationships for portfolio monitoring purposes and addressing scaling needs. Identify potential defaults or areas of concern and provide necessary support for clients, including waivers, amendments, or restructures as may be required.

Financial ModellingTake charge of investment analysis and financial modelling function for more complex transactions, while supervising and supporting a team of investment analysts in similar functions.

Portfolio Growth Support: Participate in the origination efforts by participating in client relationship development from the early stage, lead deal screening, and secure internal buy-in for potential transactions.

Stakeholder Management: Build and manage clientrelationships, lead transaction negotiations and documentation and coordinate with internal support functions, such as Risk, Legal, ESG and Compliance, throughout the investment cycle.

Brand building: Represent Mirova SunFunder at conferences, seminars, and other relevant events in the region or worldwide, as required.

Strategic initiative: Contribute to growth initiatives, including organizing or participating in company trainings and contributing to the development of our investment analysts. Engage in other ad-hoc priority tasks such as supporting investor site visits/ due diligence requests.

Required Skills/Qualifications/Experience

- Driven by our mission to finance clean energy and address climate change and energy poverty.
- Humble with low ego and eager to learn in a fast-paced environment
- Demonstrates a genuine interest in understanding business models and the inherent risks.
- Detail oriented and a critical thinker who challenges assumptions.
- Proficient in written and oral English communication
- Proactive problem solver with a track record of success.
- Collaborative team player with a strong work ethic, consistently delivering high-quality and timely results.
- At least 5 years' work experience with corporate finance advisory, private equity, project finance, debt structured finance, or project development in Africa or other emerging markets having worked for an investment advisory firm, investment fund or company.
- Strong academic records from a top-tier institution.
- French speaking capability is a plus
