Company: JobWebKenya

Location: Kenya

Category: other-general

### Job Description

The new NCBA has harnessed the power of both NIC and CBA to create a bank that brings together the best of both worlds from cutting edge mobile banking to good old-fashioned relationship management; from scalable business banking to financial services that grow as your business does; from best-in-class choice of products to investment solutions tailored to your specific needs.

### Job Purpose Statement

The IT Asset Manager is responsible for the effective management of the organization's IT assets throughout their lifecycle. This role involves overseeing the acquisition, deployment, maintenance, and retirement of IT assets, ensuring compliance with internal policies and external regulations.

The IT Asset Manager must be able to work collaboratively with various departments, vendors, and stakeholders to optimize the value and performance of IT assets while minimizing costs and risks. The role develops policies for implementation based on the ITIL framework, designed to ensure consistently high effective and efficient management in all aspects of best IT Asset Management practices.

### Ideal Person Specifications

#### Academic qualifications:

A Bachelor's degree in Computer Science, Information Technology or related field.

#### Professional training.

A minimum of 5 years' experience in the field.

ITIL Foundation would be an added advantage.

**Desired work experience:**

Adequate understanding of the various banking business systems and computer operations processes.

Demonstrable experience working in a professional IT environment.

Sound knowledge of Information technology.
