Job Description

On any day, 2 billion people use Unilever products to look good, feel good and get more out of life – giving us a unique opportunity to build a brighter future. Great products from our range of more than brands give us a unique place in the lives of people all over the world. When consumers reach for nutritionally balanced foods or indulgent ice creams, affordable soaps that combat disease, luxurious shampoos or everyday household care products, there's a good chance the brand they pick is one of ours. Seven out of every ten households around the world contain at least one Unilever product, and our range of world-leading, household-name brands includes Lipton, Knorr, Dove, Axe, Hellmann's and Omo. Trusted local brands designed to meet the specific needs of consumers in their home market include Blue Band, Pureit and Suave. Whatever the brand, wherever it is bought, we're working to ensure that it plays a part in helping fulfil our purpose as a business – making sustainable living commonplace.

Who are we?

Our purpose is to make sustainable living commonplace. It's why we come to work. It's why we're in business. It's how we inspire exceptional performance. Our products are available in over countries and 2.5 billion people use our products every day. Doing good sits at the heart of everything we do. So, when you spot a Unilever logo whilst scrubbing, brushing, eating or sipping one of our products, you can feel proud that we are committed to creating a better world for everyone.

At Unilever Kenya, we are offering talented students the chance to participate in a 8-week

summer Internship Program.

This is a paid internship which gives invaluable work experience at one of the world's largest consumer goods companies, with more than brands like Dove, Omo, Magnum and Rexona just to name a few!

Technology Management:

Unilever is a leader in sustainability and innovation. In a Technology Management Internship Program, you'll gain unparalleled access to our world-leading Information Technology infrastructure and work alongside highly experienced teams.

Qualifications required:

You must be in your penultimate (second to last) year of study.

You must hold a Kenyan Permanent Resident /Citizenship

You must have a background in Information Technology or a related course.

You will be able to demonstrate your potential through an exciting and challenging intern assignment at Unilever. Our internship program gives you real work from day one, with clear deliverables and a plan to develop your skills during the internship.

Over the two-month internship, you will be assigned a business leader as your personal mentor, provided strong line manager support, and will be able to join the peer community of graduates on the Unilever Future Leaders Program.

The program will commence from August to September and will be based in our office in Commercial Street. We understand Universities vary with timetables and so we are happy to be flexible and can offer full-time and part-time internships during this period.

If you are in your penultimate year at university and you are a Kenyan Citizen or Resident, then our Winter break Internship is for you! Applications close on 11th July .

Please Note:

Students wishing to apply for an internship at Unilever can submit one application only, for their preferred function.
