```

Medbook Africa is on a mission to transform healthcare delivery by use of technology. We aim to provide easy, digital healthcare solutions that improve the quality of life of Kenyan communities. Our healthcare solutions are tailor-made for all stakeholders and are helping advance universal health coverage to Kenyans.

Duties & Responsibilities

Working either as a team member or independently to deliver high-quality and maintainable software solutions.

Evaluating and researching new options of similar technology and offering suggestions to improve processes.

Working with UX Designers, Mobile Architects and other Developers to implement mobile solutions.

Following application design patterns.

Working on Social API integration, Core location APIs, Payment Gateway Integration, Google Maps, Geo-Location, Map Web Views and Push Notification Services.

Ability to Optimize the applications for multi-device use e.g., iPhone, iPad, Tablet & Smartphones

Knowledge of Chat Application Development will be an added advantage.

Experience in developing native Android or iOS applications will be an added advantage.

Required Skills

Bachelor's degree in computer science or a related area.

At least 1+ year(s) of relevant mobile development experience

Must have 1+ year(s) knowledge of Ionic Angular Framework,

Must have knowledge of Laravel (PHP).

Strong relational database experience (MySQL, Maria DB).

Familiarity with web frontend techniques (HTML, JS, CSS/SASS).

Familiarity working with Restful APIs.

Understanding and experience with SQLite will be an advantage.

Excellent written, spoken, and interpersonal communication skills.
