Job Description

(adsbygoogle = window.adsbygoogle || []).push({});

Syngenta is a leading science-based agtech company. We help millions of farmers around the world to grow safe and nutritious food, while taking care of the planet.

DUTIES & RESPONSIBILITIES:

Ensures stock seeds are received and have all relevant quality information with them and communicates status to the SPM.

Ensures timely nursery preparation to adhere to the sowing calendar.

Ensure availability of necessary consumables in the nursery for smooth running of nursery activities.

Ensures monitoring and reports germination percentages and deficits for action.

Ensures proper labeling and color coding at all stages for traceability and purity control.

Ensures timely sowing, pricking out and dispatch of seedlings for transplanting as per cropping schedule.

Monitors and report any structural anomaly in the greenhouse for action.

Ensures timely transplanting of seedlings in the greenhouses as per schedule and parent line location map.

Oversees the implementation of the production plan to achieve the set forecasts.

Trains production supervisors and ensures the rest of production teams are trained to enhance productivity and efficiency.

Evaluates workers to measure performance and identify areas of improvement

Coordinates all production related activities {planting, labeling, training, desuckering, defoliation, rouging, emasculation, pollen harvesting, pollination and harvesting among others} to ensure good quality seeds.

Prepares and submits monthly Vendor progress reports (VPR) to the SPM to ensure the customer is informed on the production progress.

Ensures adherence to Phytosanitary standards in the field to control pests and diseases.

Checks and reports irrigation anomalies to the relevant personnel for action.

Enforces HSE rules and regulations and champions the implementation of the Syngenta HSE policy in all business operations.

Any other tasks & projects as may be allocated from time to time.
