Specialties Oil and Gas Recruitment, Manpower Supply for Oil & Gas Industry, Project Recruitment Campaigns, Recruitment Process Outsourcing, Workforce Management, Employment Solutions for new regions, Operations Support, Contract Staffing, Permanent Hire

Key Responsibilities:

Operate and adjust high-pressure gas, oil, and coal-fired boilers in the steam-generating plant.

Ensure maximum boiler efficiency by monitoring gauges, indicators, and steam flow meters.

Maintain oil heaters, pumps, storage facilities, and unloading equipment.

Operate the steam plant using natural gas, oil, or coal as required.

Monitor boiler plant operations through electronic or pneumatic controls, pressure gauges, and safety devices.

Supervise and perform chemical testing and treatment of boiler feed water.

Monitor fuel levels and delivery to ensure uninterrupted boiler operation.

Maintain accurate records and reports related to steam plant operations.

Conduct regular checks of plant equipment, perform necessary adjustments, repairs, and services.

Ensure optimal operation of mechanical systems through routine inspections and maintenance.

Maintain proper documentation of inspections, maintenance routines, and repairs.

Foster a safety-conscious environment by following safety procedures and identifying potential hazards.

Requirements

Qualifications and Experience:

Diploma in mechanical or electrical or mechatronic engineering with over 3 years of experience, or craft certificate in boiler operation with over 5 years of experience in boiler and utilities operations and maintenance in a large ISO certified manufacturing plant.

Minimum 5 years of experience with complex systems and/or the industrial sector in the maintenance and operation of steam boilers.

Familiarity with key process utilities such as air compressors, emergency power generators, power distribution systems, heating systems, process cooling systems, and water supply and treatment systems.

Possess a valid operator's license issued by the government.

Excellent oral and written communication skills.

Detail-oriented and highly safety-conscious.

Skills and Abilities:

Thorough knowledge of the proper operation and maintenance of high-pressure steam

generation plant equipment.

Strong understanding of steam plant safety standards and procedures.

Ability to interpret schematic diagrams, written orders, control gauges, and manufacturer's operating instructions.

Proficiency in operating and regulating boiler plant equipment to optimize plant output.

Capacity to understand and follow complex instructions on proper plant operation.

Supervisory skills to effectively manage a team.

Hands-on experience in repairing and maintaining various types of steam plant equipment.

Ability to perform routine maintenance and make manual adjustments during servicing.

Physical fitness and manual dexterity to crawl inside boilers during inspections.

Strong teamwork and self-motivation, with the ability to work independently without close supervision.
