Job Description

(adsbygoogle = window.adsbygoogle || []).push({});

Kenyatta University, is a multi-campus public university in Kenya. As of October , it was one of twenty three public universities in the country

Roles and Responsibilities;

Prepare annual work plan for the department so as to ensure that all relevant public health concerns are captured.

Oversee planning and implementation of public health programs for disease prevention

Interpret and ensure enforcement of public health and environmental laws to ensure compliance with national regulations and rules

Develop and coordinate follow up of defaulter TB patients to curb its spread

Vet and approve infrastructural development plans for safety to prevent accidents due to collapse

Inspect work places to ensure occupational safety and health

Design or use surveillance tools, such as screening, lab reports, and vital records, to identify health risks.

Develop or implement interventions to address behavioral causes of diseases.

Direct or manage prevention programs in specialty areas such as occupational, infectious disease, and environmental medicine.

Identify groups at risk for specific preventable diseases or injuries for early intervention

Prepare preventive health reports including problem descriptions, analyses, alternative solutions, and recommendations

Provide information about potential health hazards and possible interventions to the media, the public and government for prevention and control

Document or review comprehensive patients' histories with an emphasis on occupation or environmental risks.

Coordinate or integrate the resources of health care institutions, social service agencies, public safety workers, or other organizations to improve the community health.

Inspect food premises and food related activities to ensure occupational safety and health

Collaborate with other departments in the disposal of hazardous waste to ensure safe disposal

Report any notifiable diseases to the national public health office for prompt action to be taken

Advise the university on chemicals to be procured for vector control

Key Qualifications & Experience:

Bachelor of Public Health or equivalent from a recognized and registered institution

At least three years relevant work experience in a reputable institution

Registered with Public Health & Technicians Board.

Valid Practice License

Computer Literate

Able to work under pressure
