

## Senior Android Developer - Kotlin

[Apply Now](#)

Company: Cross Border Talents

Location: Kenya

Category: computer-and-mathematical

We are looking for an Android developer responsible for the development and maintenance of applications aimed at a vast number of diverse Android devices. Your primary focus will be the development of Android applications and their integration with back-end services. You will be working along-side other engineers and developers working on different layers of the infrastructure. Therefore, commitment to collaborative problem solving, sophisticated design, and creating quality products is essential.

### Responsibilities

- Writing clean and efficient code for Android applications
- Monitoring the performance of live apps and work on optimizing them at the code level
- Identifying and resolving bottlenecks, rectifying bugs and enhancing application performance
- Performing unit and instrumentation tests on code
- Collaborating with cross-functional teams to define and design new features
- Staying up to date with new mobile technology trends, applications, and protocols
