

Senior Software Engineer – Full stack at Wasoko

[Apply Now](#)

Company: JobWebKenya

Location: Kenya

Category: computer-and-mathematical

Job Description

(adsbygoogle = window.adsbygoogle || []).push({}); Wasoko is transforming communities across Africa by revolutionizing access to essential goods and services. By connecting small shops to the digital economy, we fix inefficient supply chains and provide services that were previously unavailable. Wasoko aims to provide everything a retailer needs, no wholesalers or banks necessary. Thousands of retailers across Kenya, Tanzania, and Rwanda use Wasoko's mobile ordering and delivery service to receive the goods they need as quickly and cheaply as possible while also accessing growth financing for the first time.

Job Summary

The Full Stack Senior Engineer is responsible for designing, developing and maintaining the front and back-end of the company's website, web applications. This role requires a high level of technical knowledge, design skills, expertise in web development & programming, problem solving as well as deep understanding in building RESTful Services, web applications and maintaining them.

Responsibilities

Design and develop web applications and mobile applications that meet user requirements and adhere to design and coding standards.

Create and maintain databases for web applications and mobile applications.
