```

My Health Africa was created to help strengthen the health sector across Africa for both patients and doctors.

Responsibilities

Conduct layout adjustments based on user feedback.

Illustrating design ideas using storyboards, process flows, and sitemaps.

Gathering and evaluating user requirements, in collaboration with product managers and developers.

Design and iterate company documents and presentations.

Designing user interface elements across all our platforms (Web and mobile).

Develop UI mock-ups and prototypes that clearly illustrate how sites function and look.

Create original graphic designs (e.g, images, sketches, and tables). Identify and troubleshoot UX problems (e.g., responsiveness).

Adhere to style standards on fonts, colors, images and the brand guidelines of the company.

Support marketing team by helping with marketing materials.

Qualifications

Bachelor's Degree in Computer Science or related field.

Demonstrated experience working with Adobe XD, Figma, Photoshop, and illustrator.

A very good understanding of how users interact with the web and mobile applications.

Must have an eye for attention to detail.

A good understanding of Front-end development languages is an added advantage. I.e. HTML, CSS, XML etc.

A strong desire to learn and figure out how to make a web and mobile application more user-friendly and functional.

Excellent communication and English writing skills area must.

A wiliness to learn and work in a fast-paced start-up environment.

Flexible and willingness to help in other areas if need be.

Must be a team player.
