Company: ADM

Location: Nairobi

Category: other-general

Job Description

SR Product Developer Kenya

As a scientist you will coordinate and manage the customer product development projects, supporting the development process from the generation of concepts to creation of laboratory samples, through to industrial manufacturing. Supporting and leading product and trial fillings at the customer site. Focus on beverage and sweet food applications.

Within the role you:

fully understand ADM Nutrition's product and service portfolio

create, further develop and maintain a local/regional product portfolio

support the African business development plan from the technical site

follow and understand the business strategy of regional and local key accounts

provide guidance and technical support on final product formulation and manufacturing to our commercial team for our African customers

set goals and priorities to achieve goals

Processing of sample orders in the IT system

Sensory and physical assessment, control and qualification of developments

Provision of the corresponding samples for shipment to national and international customers, for consumer tests and trade fairs

Review of ingredients (vitamins, minerals, flavors, colors, etc.) and appropriate adaptation of formulations in compliance with cost and quality specifications

Solid mathematical knowledge

Compliance with and monitoring of ISO processes, including the fulfillment of assigned rotating laboratory tasks

Compliance with and monitoring of internal and legal requirements and guidelines for hygiene, occupational safety, food safety and environmental protection

Support and participation in customer presentations and internal product presentations

collaborate and communicate between departments across EMEA, including our development headquarters and technical service team, other application labs and the commercial team.

You have

BS Degree or MS Degree in Food Science and Technology, Chemistry or Pharmacist

a minimum of 5 years' experience in food and beverage industry

a strong background and experience in product development and application of beverage and food

food and beverage manufacturing experience and are (ideally)well networked in the industry

excellent project management skills

the ability to think about, assess and shape the future of individuals, teams and the organization; you understand how an organization needs to change in the face of internal and external trends and influences; you develop with others a shared long-term vision for the organization; you advocate for action to achieve long-term goals and influence others to make the vision a reality

excellent written and spoken English. Another language is an advantage

strong communication skills

solid PC skills and affinity with IT tools (SAP and Salesforce)

strong knowledge in African regulatory environment

travel willingness and no problem to spend about 30% of your time outside Nairobi

enthusiasm to develop innovative solutions and trends in the beverage and food market

joy to collaborate within and between teams

You are internationally mobile, welcoming new opportunities in a highly dynamic, global environment with the willingness to go the extra mile.

#IncludingYou

Diversity, equity, inclusion and belonging are cornerstones of ADM's efforts to continue innovating, driving growth, and delivering outstanding performance. We are committed to attracting and retaining a diverse workforce and create welcoming, truly inclusive work environments — environments that enable every ADM colleague to feel comfortable on the job, make meaningful contributions to our success, and grow their career. We respect and value the unique backgrounds and experiences that each person can bring to ADM because we know that diversity of perspectives makes us better, together.
