Category: other-general

Job Description

IFROH invest in research on a variety of topics vital to global health. For each of these global health research topics, find an in-depth collection of news, resources and funding from Fogarty, the NIH, other U.S. government agencies, nongovernmental organizations and others. Our Vision Is To Change The Perception IFROH is dedicated to advancing the mission of the National Institutes of Health (NIH) by supporting and facilitating global health research conducted by U.S. and international investigators, building partnerships between health research institutions in the U.S. and abroad, and training the next generation of scientists to address global health needs.

Job Summary

The successful candidates will support a team of Investigators in undertaking a study aimed at determining common self-harm methods, as well as describing the socio-demographic and clinical profile of patients presenting with self-harm. These include extraction, storage, and management of data in accordance with the data protection and research policies of the Institute for Research on Health.

Responsibilities

Organize all aspects of data extraction from Medical Records

Code extracted data and provided regular reports

Ensure that data collection materials and accessories are safeguarded

Track and maintain relevant systems to ensure study timelines are met

These are initial responsibilities and deliverables may evolve during study implementation hence other related responsibilities may be assigned

Requirements

Diploma/Bachelor's Degree in a relevant health discipline, Social Sciences, or equivalent.

At least one year's experience in research data collection/extraction preferably in a university/research Institution setting

Educational or experiential knowledge of data cleaning and analysis

Knowledge and skills in handling quantitative and qualitative data including Medical Records

Certification in the Protection of Human Research/ Clinical Trial

Excellent inter-personal relationship with the ability to work well with colleagues and the full spectrum of academic staff from trainees to senior faculty members and researchers, located in different geographic zones
