Company: JobWebKenya

Location: Kenya

Category: other-general

Job Description

Kenyatta University, is a multi-campus public university in Kenya. As of October , it was one of twenty three public universities in the country

Key responsibilities:

Lead the piloting of pre-primary child assessment tools (including WPPSI-IV) with a group of at least 60 children between 3–4 years old

Iteratively adapt and re-test existing child assessment tools to the target age group (3–4 year olds), local language and local context

Provide ongoing supervision and guidance to Research Assistants, helping to problem-solve issues as they arise and ensure the successful adaptation of tests to suit the local context and defined curriculum outcomes

Work closely with the assessment leads to refine the testing tools and support as necessary

Coordinate translation of assessment tools into appropriate local language(s) at a level suitable for children

Lead and coordinate the acquisition, adaptation and reproduction of all necessary tools and resources associated with child testing (e.g. books, record forms, etc.)

Assist in the development of the assessment training guides and record forms

Assist with recruitment and training of the child tester team (under the direction of the

assessment leads)

Work alongside the curriculum intervention supervisor and government project manager at the county level to ensure the efficient running of the assessments

Enter data into a statistical program (e.g. SPSS or Stata) to examine the range of scores and for reliability testing

Requirements

Skills

Fluent in English and written and spoken languages in Tharaka Nithi County

Bachelor's degree in Early Childhood Development Education, Psychology, Social work or equivalent

Experience in carrying out school readiness and/or cognitive assessments with young children (under 7 years old) in class room or non-classroom context

Demonstrable experience in project management and coordination

Strong interpersonal skills and demonstrated ability to work with stakeholders at various levels

Experience with statistical software such as SPSS preferred

Familiarity with research protocols and Randomised Control Trial (RCT) field RCTs desired

Experience adapting and developing pre-primary education assessment tools for children to fit a particular age group and context preferred

Contract period and time requirements:

3 months full-time, with possibility to extend
